Reminder About Our Health Policy on Cough and Colds

Dear Parents:

The teachers have noted more frequent occurrence of coughs and colds in their classes. **In consideration of other families, please be reminded of our Health Policies found in the Parent Handbook:**

Children who have productive cough (phlegm) and colds for 2 consecutive days should get clearance from their pediatrician before re-entering class.

Please do comply with our policy because we know that you would appreciate the courtesy of parents who ensure that their sick children will not infect your child.

Thanks for your cooperation!
